Information contained on or accessible through any of the foregoing

channels is not incorporated by reference into this press release.

Definitions

Assets under administration (AUA): AUA reflects the aggregate fair value of assets held by users within the platform, including those held by third-party partners for execution or custody services, categorized as follows:

- **Crypto:** Includes all cryptocurrencies and users' crypto assets held in eToro digital wallets.
- **Equities:** Includes stocks, ETFs, and assets managed under the Spaceship program.
- **Cash:** Includes customers' uninvested cash (e.g., cash balances, eMoney balances, in-process cashouts), as well as cash used for margin or posted as collateral for leveraged positions.

Funded Accounts: Funded Accounts are users who have completed KYC, AML and other onboarding processes, activated their account, deposited funds, executed at least one trade at any time and have a positive account balance (invested or uninvested). Funded Accounts represent the deepest level of our user acquisition funnel and are the users from whom we generate Total Commission.

Interest Earning Assets: Interest Earning Assets are the average monthly balances of users' cash balances, corporate cash, users' total leveraged positions and stakeable cryptoassets.

Total Money Transfers: Total money transfers are the cumulative value across the respective period of user deposits, withdrawals, and cross-currency trade funding via eToro Money IBAN.

Trades: Trades represent the total number of orders that were placed by users and executed during the applicable period. Trades include self-directed and copy trades, and each trade reflects either the opening or closing of a position by a user.

Invested amount per trade: The total invested amount divided by the total number of trades. For reporting purposes, we present this measure separately for capital markets (equities, commodities, and currencies) and for cryptoassets, in order to highlight trends across the two categories, given their unique characteristics.

About eToro

[eToro](#) is the trading and investing platform that empowers you to invest, share and learn.
